

# Fast Forward Spelling

Following on from the success of Fast Forward Grammar 2, Fast Forward Spelling has been developed to further prepare pupils for the higher expectations in the current National Curriculum. It supports pupils to achieve successfully in both papers of the Grammar, Punctuation and Spelling test at the end of Year 6.

Fast Forward Spelling has been designed to address gaps in learning for children who are achieving slightly below the expected standard. This intervention is for children who are judged to be able to catch up, and keep up. It is not intended to take the place of whole class teaching or to support children who have identified special needs.

Fast Forward Spelling is a twelve-week programme with daily sessions planned for each week. It focuses on: spelling rules and conventions, teaching approaches, independent practice and formative assessment. Each session lasts for approximately twenty minutes and follows the sequence: Teach, Practise, Independent, Apply, Assess.

This publication contains all the information you need to deliver the intervention. It includes a CD containing the required materials plus additional useful resources providing further support and practice if required.

This intervention can be delivered by teachers or teaching assistants, and is further supported by a practical and informative half-day course which gives a detailed overview of the programme materials.
